

Company overview

Five Oaks Services Group supports federal, state and local agencies, private owners and the prime contractors who build for them. We provide construction management support, schedule and claims review, construction safety programs and wildfire mitigation planning. Our principals bring a combined 39+ years leading capital construction programs of \$600 million to more than \$1 billion, safety and emergency response, and wildfire mitigation planning across multiple states.

Core competencies

- ◆ **Construction management support.** Owner's representative, quality assurance oversight, submittal review and deficiency tracking, commissioning and turnover, FEMA Public Assistance program management. Management support only; no engineering design.
- ◆ **Project controls.** Primavera P6 schedule review, recovery schedule and plan review, change-order, delay-claim and pay-application analysis, contract review and negotiation support.
- ◆ **Construction safety.** EM 385-1-1 Accident Prevention Plans and activity hazard analyses, site-specific safety plans, SSOH support, safety and occupational health program support, audits, incident investigation and root cause analysis.
- ◆ **Safety program management.** Fractional safety director on a monthly basis; safety programs and prequalification for ISNetworkworld, Avetta and Highwire.
- ◆ **Wildfire and hazard planning.** Wildfire mitigation plans, Community Wildfire Protection Plans, wildland fire management plans for installations and federal lands, FEMA hazard mitigation plans, emergency response and COOP plans, grant applications and grant management.

Differentiators

- ◆ **Senior people do the work.** Principals lead every engagement; no hand-off to junior staff.
- ◆ **Owner-side experience** on capital programs of \$600M to \$1B+, with a general contractor background that includes federal and MILCON projects.
- ◆ **Field and emergency credibility.** A current NREMT-Paramedic and former disaster-response safety officer, paired with a PMP-certified construction executive.
- ◆ **Conflict-free.** We never work for both the owner and the contractor on the same project (FAR 9.5), and we check for conflicts before taking any job.
- ◆ **Teaming.** We support prime contractors as a small-business subcontractor on construction management support and safety task orders.
